COMPASSION  
\*\*\*\*\*

Compassion is a  
virtue that shows total  
empathy for all living  
beings, including  
animals. The  
honorable city of  
Britain holds its  
golden yellow shrine.  
It is given the  
characteristic of a  
bard to many, and  
Despise is its dungeon.  
The shrine lies  
North of Britain, on  
an oasis, however it is  
closer to Cove than  
Britain. In Fell it is  
noted the shrine never  
turned a shade of  
purple or black.  
A compassionate  
soul values all life as  
highly as its own.  
It strives to improve  
all live whenever he  
can. He acknowledges  
that even in the most  
evil of creatures there  
is some good. He will  
aid any man in need of  
assistance, both royal  
and beggars.
